

## THE WORLD'S MOST EXPERIENCED COMMERCIAL CLEANING COMPANY

COIT's full-service, highly trained professionals provide expert routine and specialty cleaning for commercial enterprises throughout North America. We work with you to determine your business' specific cleaning needs and streamline the process. Trust COIT for all your cleaning requirements.

### **Carpet & Area Rugs**

The industry's most advanced truck-mounted system removes ground-in soil and revives your carpet's appearance. Additional services include carpet repair, deodorizer, and COITGard™ stain-resistant protective coating.

### **Upholstery**

Our specially-trained, certified upholstery cleaners and technicians have expertise cleaning silk, suedes, ultrasuedes, and velvet. We also offer deodorizer services as well as our CoitGard™ stain-resistant protective coating.

### **Draperies & Blinds**

Our signature service removes dust, smoke, pollen, odours, and soil—draperies are returned and re-hung with parallel pleats, even hems, and no shrinkage. We also clean blinds and other window treatments.

### **Tile and Grout**

Our powerful truck-mounted cleaning system safely removes dirt and contaminants from tile flooring, showers, and countertops. We can repair your grout and provide colour sealing services too.

### **Natural Stone**

Our proven high-quality, natural stone cleaning process includes pre-cleaning and masking of non-treatment areas and cleaning and sealing of surfaces. Also available with honing and polishing.

### **Concrete Floors**

Like all other flooring surfaces, concrete floors become dull and dirty over time. A professional cleaning by COIT's Concrete Floor Care process brings new life to your indoor and outdoor concrete floors.

### **Wood Floors**

We extract hidden dirt from deep within the floorboards and add a detailed hand-cleaning of hard-to-reach areas. A final machine scrub can be followed by the application of a shining top coat.

### **Air Ducts**

We remove harmful contaminants with our HEPA-Aire™ vacuum and Aire-Sweep™ compressor systems, which pull air duct pollutants into a highly efficient contained filtration system.

### **Stage Draperies**

We not only clean stage draperies—we can also ensure you meet local fire code requirements by treating them with flame retardant. COIT is one of the few companies qualified to offer this service, and in some cases we can flame-retard the draperies at your location.

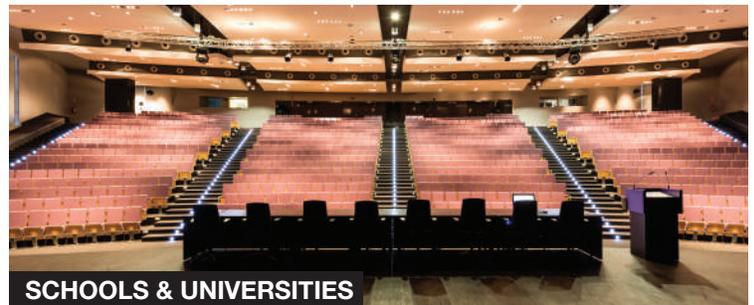

## OUR SERVICES ARE GUARANTEED

With COIT, you're getting the industry's strongest 100% satisfaction guarantee. If you're not completely satisfied with the results of your COIT cleaning services, we will promptly refund your money.\*
